Great – I'm waiting for Angela and Terry Fisher to tell me if they'll be ready tomorrow – it may end up being next week.

Pam – if we set up an appointment for this week – do you have your "stuff" together? And Janet's? Thelma said she's ready – I'm checking on everyone else...thanks!

I have some redacting to do on business licenses, but am ready for the most part!

Are you confident all of the records are releasable?

It may be a week or so before Thelma's ready, and I haven't heard from Angela...

Thanks, Pam!

I have a file for each address – some of them have quite a bit because they are commercial/industrial. One of the properties belonged to the Sesko's so Janet has several boxes related to 1701 Pennsylvania – she would like to be present when the requestor reviews those files.

Thanks, Pam. Are there a lot? Just a couple that we could scan and send via e-mail?
All clear releasable, or some that will need review?

Subject: Cannon - Aspect Consulting Public Records Request

Some Records Managers have already advised me that they don't have any records responsive to this request; for the rest of you who feel you do have records – I've advised the requestor that records will be ready in 4 weeks based on Thelma's need for that much time. Also – please gather the records at your location and let me know when you have them together rather than sending them to me. I'll ask the requestor to contact someone at each location review the records rather than attempting to gather them all.

Thanks!
